**Notes:**

- These are State regulated wetlands. Wetlands are also regulated on the federal level by the Army Corps of Engineers the boundaries of which may or may not match State wetland boundaries.
- Where zone boundaries are shown with dimensions given, dimensions are approximate and intended to begin and or end at centerlines of roads, natural features, municipal boundaries, centerlines of right-of-ways (R.O.W.), or Tax Map Parcel (T.M.P.) lot lines as indicated.
- District boundaries have been determined at the time of adoption and/or amendments by using the most current tax maps. If a discrepancy exists the official zoning map and/or the Zoning Board of Appeals will be the final determining factor to decide district boundaries.
